

CLARESHOLM REVIEW

VOLUME 9

CLARESHOLM ALTA. JAN. 1-1914.

NO. 45

Meadow Creek Notes

Mr. Cunningham M. A. our school teacher has gone to Calgary to spend Christmas.

Miss Maud Bell is back from Calgary spending Xmas with her parents at Meadow Creek.

Truman Maltby gave a Bachelor's Supper on Xmas night. Every body had a most enjoyable time. The turkey was so big he had to roast it in the bath tub. He claims it weighed thirty-six pounds, but "seeing is believing."

W. D. Foxcroft was in town Tuesday on business.

A most enjoyable dance was given at Carleton Place, Dennis and Swanton last Friday.

Lawrence Maltby was in town on business Monday last.

Tim Branting has left Neal Gray's and is now staying with J. H. de Forest.

Be Prepared for Spring Seeding

Now is the time for farmers to consider the question of a good seed grain supply for next spring.

The greater part of the grain in the West was harvested under dry conditions last fall and little difficulty should be met with in getting seed of strong vitality. Notwithstanding this there are some individuals and even sections of the Western Provinces that were not so fortunate at harvest time and now have seed of doubtful vitality in their granaries for the spring seeding.

A good seed vitality makes a good start, helps to keep down the weeds and finally gives the big yield, which seed of poor vitality is a weak loss.

Therefore every farmer who suspects the vitality of his seed should send a sample to the Dominion Government Seed Laboratory, Calgary, for germination test. In order that the report of this test may be of greatest value to the sender, preparatory to sending the sample he should first clean his seed as far as seedling. Too often seed that is badly contaminated with weed seeds is sown. Every year the proportion of Western wheat and oats which contain wild oats is increasing. Such grain must take a lower grade because no satisfactory method of separating it has been devised. Samples of fax containing 15 per cent of wild oats only too common; this to approximately 200 bushels of wheat per acre. When the cost of threshing, handling and freight on useless material is added to the loss caused by the injury to the growing crop, the net profit per acre is very materially lessened.

Fax is the most badly contaminated seed which the farmer sows and since it is usually sown on new breaking his land is practically ruined at the start. Farmers who have clean farms, or farms free from some of the most troublesome weeds—wild oats, stinkweed, false fax, bull mustard, tumbling mustard, etc., should be very careful to sow only clean seed.

The Seed Laboratory at Calgary is at the disposal of the farmers of the public, and it is hoped that they will make use of it in their efforts to obtain pure seed supply.

In former years most of the samples have come in to be tested in March and April, overtaxing the capacity of the Laboratory and sometimes causing a delay in reporting on the samples.

It is therefore urged that samples be sent in as early as possible to avoid this delay and to enable the farmer to replace his seed who thereby finds it unfit for use.

Help with the News

Our friends will confer a favor by notifying this office of the presence of guests, of visits made to other places, and of any other matters of social interest. The editor wants to make note of all social affairs, but needs your help to "gather them in."

Injured in Runaway

Mrs. Stark met with a serious accident a few days ago which might have terminated fatally. She and her daughter were returning to their ranch, driving a team of bronchos. The bridles had been interchanged by whoever hitched the horses. On the road this was noticed and Mrs. Stark's daughter attempted to change the bridles on the road. The team ran away and Mrs. Stark fell or was thrown from the wagon. She was unconscious. Her daughter came back to town for help and Mrs. Stark was brought to the home of her sister, Mrs. John Wall. She was under medical attendance and is recovering.

Masons Install Officers for 1914

St. John's Night, which fell on last Saturday, was night to time-honored custom, is the night for the installing of the officers chosen to fill the chairs during the ensuing year. Cairo Lodge No. 32, will have as officers for 1914, as follows:
I. P. M.—J. T. Kingless;
W. M.—J. T. Kingless;
S. W.—C. J. Brann;
J. W.—D. M. Munro;
Sec.—W. H. Shanks;
Treas.—N. Holmes;
Chap.—Rev. H. M. Henderson;
S. D.—W. G. Moffatt;
J. D.—M. Lebeau;
Sec.—W. H. Shanks;
J. S.—R. E. Moffatt;
M. C.—W. M. James;
T. U.—Ernie Dore;
Tyler—C. W. J. McLeod;
Organist—J. F. Nevaldes.

"Does Each Cow Pay?"

Some records of total production for the last seven months sent in to the dairy division, Ottawa, showing how individual cows on adjoining farms vary in real earning capacity, will be of both interest to the average farmer and of value to men who are planning for better results next year.
A ten-year-old cow that calved on March 12 has given since then just 2312 pounds of milk and only 102 pounds of fat, a disappointing seven-year-old, calved 2nd April, gave 6420 pounds of milk and 228 pounds of fat, a little more than twice as much. In another contrasted pair in Glenora, an eight-year-old, calved 6th April, gave just 3394 lbs. of milk and 120 pounds of fat; while a five-year-old, calved 26th March, gave 7260 pounds of milk and 244 pounds of fat, or again more than twice as much milk.
Here there two owners of two such poor cows the wrong type of cow; is the old placid contentment with "average" yields, which are liable to degenerate so quickly into poor yield? An income from the milk of one cow of only \$28, when the average of a single cow carries \$75 as seen above, cannot be considered satisfactory when a man is supposed to be keeping cows with the object of making money. A single milk record shows definitely which cows in the herd earn the most; don't "average" good and poor together, keep the best, but make sure that each cow pays—C. F. W.

Pole Line to Go.

We have it on excellent authority that as soon as the frost is out of the ground in the spring, the pole line on the gas line will be removed. This matter has been a source of some hard feeling among those whose lands are traversed by the telephone line and whose fields were cut up by the obnoxious poles. We were sure that the matter would be taken up and these poles removed and this news, confirming our belief, comes at this time as pleasant news. Mistakes will be made by the telephone company, but when the faults are being corrected, due credit should be given to those who are correcting them.

Clareholm and District

Mrs. Wm. Lebeau spent Xmas with friends in Calgary.

W. T. Hickey left on Monday for his home at Penhold, Ore.

Fred Langmuir left on a short visit to Toronto, last Friday night.

G. B. Moir, of Lethbridge, spent Xmas here, the guest of Mr. and Mrs. J. E. Moffatt.

W. G. Moffatt has purchased a Buick Springfield coach which is a prize winner.

J. A. Bestie and wife, of Macleod, arrived yesterday to spend New Year's Day with their daughter, Mrs. M. A. Lebeau.

O. S. Longman, of the staff of the agricultural school, is spending a short vacation in Edmonton.

T. T. Gibbie and family have moved into the house lately occupied by the Misses McFar.

There are over 90 entries contemplated by local poultry men for the Lethbridge Poultry Show next week.

If you do not go to the Band Dance to-night, don't forget to send your dollar away.

Willard McKinney, of Alberta College, Edmonton, is spending his vacation at his home here.

Mr. and Mrs. R. A. Shearer and family spent Xmas at the home of Mr. and Mrs. Richard Brown.

Rev. G. E. Edwards, of Edmonton, was the guest of Mr. and Mrs. Walter Young for the Xmas week.

Wm. Moffatt, M.P.P., returned from Edmonton on Sunday night where he had spent his Xmas.

T. C. Milnes leaves today for an extended trip to his old home in Indiana and to other eastern U. S. points.

Mr. and Mrs. Gordon Dixon, of Olds, and Dr. and Mrs. Dixon, of Stirling, were the Xmas guests of Mr. and Mrs. Mark Fisher.

C. E. Thilston does not seem to agree with those who say that the price of horses is down as he sold a suckling colt for \$110 last week.

STAYED—A dark brown filly, about 2 years old, bred by a lady Xmas, was connected on Sunday by last J. connected on Sunday.

\$10 reward is offered. Apply, McKay Bros., Clareholm, Phone 1002.

A. Layzell, of Calgary, shipped a couple of horses to the latter place on Saturday. The horses were purchased in this district. F. W. Elliott sold his seven head.

FEED FOR SALE—200 ton top of sheaves and upland hay, excellent quality, good shelter, running springs, straw stacks. Apply Aubrey C. Watson, Meadow Creek, Alta.

FOR SALE—Two Jersey cows and one yearling heifer, cows coming fresh in the spring. Apply, F. W. Elliott, New Oakley, P. O., Clareholm, Alta.

J. F. McDougall & Sons won first prize at the Macleod Seed Fair last week on White Field wheat and also short season in Edmonton.

Mr. and Mrs. J. F. McDougall & Sons won first prize at the Macleod Seed Fair last week on White Field wheat and also short season in Edmonton.

Larry Bell returned on Monday from a prolonged trip to the East. He says that the West is the only thing outdoors and he says, "here now."

William Dunker, Esq., spent a part of Xmas with friends in Calgary. The rest of it he spent in the C.P.R. depot awaiting the arrival of his boat.

Mr. and Mrs. R. S. Law and Mr. S. Law were guests at the Willow Bend Ranch for mid-day dinner and Mr. J. H. Walton were entertained at the home of Mr. R. S. Law.

Mr. and Mrs. F. W. Elliott and family, Messrs. G. Clarkson, T. deC. Der, Frank Howard Kerr were married to Miss Martha Annie Chilton, the Rev. Wm. McNichol, M. A., officiating.

J. A. Horne, Jr., returned from Edmonton where he had been looking over the prospects and says the South for him. His uncle, J. F. Reynolds, could have told him that without the trip.

Jack Kesler took his first skate out at the dam. As the time and place was not announced in advance, no reporter was sent to the scene. What happened is known only to Jack and the solitudes. No marks or scars are visible.

The St. Andrew's Church S. held their Xmas entertainment on Xmas Eve. Santa Sr. and Santa Jr. were there. The program was entirely in the hands of the scholars of the school. A very pleasant evening was spent.

CLARESHOLM and DISTRICT

BORN—On Sunday, Dec. 21st, to Mr. and Mrs. Fred Palmer, a son. That this is the first boy ever born in the Province of Alberta or anywhere else for that matter, there is the excellent authority of his proud father.

J. E. Moffatt received this week from E. B. Thompson, the well known breeder of the Barred Rock, in the east, a pen of his fancy line, two hens and a cock. Eric is positive he will make a clean-up in the Barred Plymouth Rock class with his latest acquisition.

A buckskin pony with the halter shank tuck, with a buggy as an appendage, wandered down the street the other day and after taking in the principal sights, visited the Agricultural School and the Demonstration Farm. Here he remained for some time unchained and may be there yet.

Carl Foss, who returned from a hunting trip last week, reports the success of D. J. Young, of the Canon Ranch, and himself in securing each a fine deer. Thos. Guy shot a very large deer but it got away from him and could not be located. W. H. Cady, who is one of the party drew a blank.

S. S. Hotchkiss returned to Edmonton on Saturday after spending Xmas with Mr. and Mrs. Frank Murray. Mrs. Hotchkiss returned to Edmonton on Wednesday accompanied by Mrs. Wamnamaker, who has secured an appointment on the teaching staff of the Edmonton Public School.

As a sign of the directors of the Clareholm District Agricultural Society last Saturday, it was decided to make arrangements for the holding of the annual fair on July 23 and 24, 1914. The directors also approved of the request to the government to have the judges at the fairs so appointed that the same judges should not be at more than one fair in the same district.

Dr. Trupper is able to be out again after being confined to the house for over three weeks owing to an injury to his knee which he received as a result of his third for knowledge. He was investigating the working of the traps belonging to the Gun Club and as one trap was being sprung his knee was struck by the arm of the trap. Dr. Trupper is able to hobble out on crutches.

The Masonic lodge attended divine service last Sunday evening at the Presbyterian Church. There were about 30 persons in attendance. The service was filled to overflowing for this service and a mystery address was delivered by the pastor, Rev. Wm. McNichol, to his brother Masons and to his congregation. The choir chanted, "Remember Thy Creator," from the Masonic service, with beautiful effect. Sullivan's "Oh, God, Guide Some Night" was the anthem.

Kerr-Chilton

At the residence of the bride's parents, Clareholm, Alta., on Xmas Eve, Santa Howard Kerr was married to Miss Martha Annie Chilton, the Rev. Wm. McNichol, M. A., officiating.

Curling Opened Xmas Day

The curling season of the Clareholm Curling Club, Ltd., began with six matches arranged. In the afternoon Insp. Tucker defeated Mayor Holmes with a score of 9-7 and C. J. Braren took D. P. Williams into camp with 13-5. In the morning, Postmaster Simpson got the long end of the game with Druggist Reinecke, score 14-7 and Banker Dawson took a fall from the mayor with 19-8. In the evening the games had just begun when the lights went out. The town system being out of coal. The ice was in very fair condition for the first of the season.

Concert and Dance at Meadow Creek

The annual school concert dance was held in the school house on Dec. 23rd (Tuesday). A great many people turned out to see the school children perform. A very good programme was given, the individual turns being too many to repeat. Too much praise cannot be given to Mr. Cunningham for the hard work which he did to make the concert a success, and his hard work was amply rewarded by the way in which the school children performed. A platform was built, and it was the concert a great deal better than the otherwise would have been, the audience being able to get a better view of the performers. Dancing commenced about 11:30 p.m. A really grand supper was given by the ladies, after which Mr. Swanton rendered a vocal solo. Mr. Alex Bell was master of the evening and evening, and in the course of a few remarks stated that the weather had been so warm that Santa Claus had been unable to reach Meadow Creek, with his sleigh, but still there was a big supply of candy and presents on the Xmas Tree for the children. Mr. Bob Oley was the chairman, for a number of protests have been made by the school children. The evening was given by Messrs. Valhalla, Thompson, Hart and Dennis. Special mention must be made of the way in which Johnny acted the negro. Perhaps he has been to Texas, to study the language, he did it so well.

High School Debates

The first series of debates in the provincial high school debating society, organized by the department of extension of the University of Alberta, was held on Friday, Dec. 12th. Eight debates in all took place. Owing to the fact that a number of protests have been made, it is not possible to announce the winners except in the southern section where Lethbridge won a keenly contested debate from Edmonton. In that section therefore Lethbridge will meet the team from the Clareholm Agricultural School on Friday, January 16th. Edmonton meets the Kamion Agricultural School on the same date. The contest has aroused a great deal of interest so far and promises excellent results.

For the Oyster Supper

The result of the games so far played in the President vs. Vice Pres. match at the Curling Ring, gives a very long lead for the former. The long lead of 15 in one game and 10 in another could not be overcome. The games were as follows: Friday, Dec. 23, Moffatt 19-Ringrose 4; Tucker 9-Holmes 7; Monday, Dec. 23, Boese 15-Simpson 4; Dawson 8-Holmes 11; Tuesday, Dec. 23, Boese 10-McNichol 4; Williams 9-Reinecke 12.

To Search for Water

What will be good news to those who live in the dry belt east of Grainau was learned the other day. Mr. Moffatt, who has the right to every part of his continuance at heart, has secured the coming into this district of a powerful deep-well drilling outfit, which will, under arrangements to be made later, be ready for the search for water. The farmers in this "dry belt" have suffered much inconvenience through Mr. Moffatt's search and they will welcome a powerful rig such as this coming into the district.

For Private Sale

One good team horses, one wagon with handle rack, one truck and one horse. These will be sold at a bargain. First come, first served. Phone 102.

TRICKS OF THE MOVIES

HOW FILM PRODUCERS GET

THAT EFFECTS

Trick Moving Pictures Are Mostly Made With a Stop Camera Which Allows Dummies To Be Substituted for Live Actors at the Critical Moment—Method of Making Horror Movies.

The stop camera is the medium by which a great many clever trick effects are taken. First of all, a film consists of a series of still photographs called frames, each about half an inch in depth, which are both photographed and thrown upon the screen at a normal speed of sixteen per second. The stop camera, however, is so arranged that one single frame of the film may be exposed, the camera stopped, and alterations made, only the effects of which are noticed.

A man is knocked down and apparently run over by a steam roller, but as soon as it is off him he rises and walks away. This is done by the use of such a picture in the stop camera film the man being knocked down is taken, the camera is stopped, the dummy is substituted, the camera is started, and the man is seen to rise and walk away. The camera is stopped, the dummy removed, and the man is seen to rise and walk away. The camera is stopped, the dummy removed, and the man is seen to rise and walk away.

Another variety of trick film that has long mystified picture-goers is the bricklayer building a wall. The top of a sky-scraper into the street below, apparently without being there for a long time. The bricklayer is taken, the camera is stopped, the dummy is substituted, the camera is started, and the man is seen to rise and walk away. The camera is stopped, the dummy removed, and the man is seen to rise and walk away.

The camera records the scene, the man is seen to rise and walk away. The camera is stopped, the dummy removed, and the man is seen to rise and walk away. The camera is stopped, the dummy removed, and the man is seen to rise and walk away.

Such extraordinary phenomena as a man jumping from a river to a tree, a man falling from a cliff, a man being crushed by a giant, are all done by the use of the stop camera. The camera is stopped, the dummy is substituted, the camera is started, and the man is seen to rise and walk away.

Occasionally one sees motor cars climb up walls— a seminary of painted eagles laid upon the wings of the car. The camera is stopped, the dummy is substituted, the camera is started, and the man is seen to rise and walk away.

Occasionally one sees motor cars climb up walls— a seminary of painted eagles laid upon the wings of the car. The camera is stopped, the dummy is substituted, the camera is started, and the man is seen to rise and walk away.
